SUMMARY

Technology is ever-growing and advancing in our world. Striving to incorporate: accessibility, reliable applications, and improved user experience.

EXPERIENCE

Software Engineer: [Tax Estimator](#) - January 2023

- Created a distributable program to calculate an estimate for the 2023 tax year.
- Independently learned Dear ImGui and C++ for a downloadable, accessible application.

Software Engineer: [Maya Pizza Plugin](#) - January 2023

- Independently learned CMake and Maya API to architect a custom Maya plugin.
- Incorporated the functionality of Domino's website into a Maya plugin with C++.

Software Engineer: [Mock Hospital Database](#) - February 2023

- Implemented a back-end application using Django, Python, PostgreSQL, and Django REST Framework.
- Learned AWS development environment for Django application deployment with AWS cloud.

Front-End / Back-End Engineer: [FELP \(Full Stack\)](#) - January 2022

- Integrated React and JavaScript for front-end with NoSQL back-end API following REST architecture with MongoDB, Mongoose, and Express.
- Collaborated with a cross-functional team to produce an application using HTML, CSS, and JavaScript while having Git as a source control repository.

Associate Instructor: [General Assembly](#) - March 2022

- Encouraged students to advance their full-stack development and computer science fundamentals.
- Proactively assisted faculty and Lead Teacher in facilitating course plans.

SKILLS

Languages

JavaScript
TypeScript
Python
C
C#
C++
YAML

Frameworks

React
PostgreSQL
MongoDB
Express
Django

Soft Skills

Organization
Agile
Creative Thinker
Cooperative
Continuous Learner
Great Communicator
Flexibility & Adaptability

EDUCATION

General Assembly/ Los Angeles: 2022

- Certificate for Software Engineering Immersive Completion

Saddleback College/ Los Angeles: 2015

- Cinema- Television- Radio Career Skills Certificate
